Overview.....	3
Processing.....	3

OVERVIEW

We have added the ability for users to revalue their Inventory On Hand Values without needing to adjust quantities in any way. This function is available in the Palladium Enterprise and Premium Editions only.

PROCESSING

From a processing point of view, you simply select the Inventory Adjustment function and change the type from Adjustment to Revaluation as seen below.

The screenshot shows the 'Inventory Adjustments' window. The 'Adjustment Type' dropdown is highlighted with a red box and set to 'Revaluation'. The table below shows the inventory items and their values.

Number	Description	On Hand Qty	Current Value	New Value	Adjusted Value
Apple	Granny Smith Apples	21	210.00	105.00	-105.00
BarOne	Bar One	11	55.00	43.00	-12.00
Carrot	Whole Carrots	102	1,387.20	1,000.00	-387.20
Coffee	Coffee	45	2,925.00	2,100.00	-825.00
